

TA Pad Antenna DIN A4 & round

Antenna for a wide range of applications using 13,56 MHz tags!

Product description:

- The antenna is usable together with a 13,56 MHz reader module.
- This TA Pad antenna is conceived for the application with 50 Ohm wave resistance.
- The Pad antenna is adjustable for the application in a metallic environment.

<u>Technical specification</u>	
Material:	PVC
Color:	Black
Operating temperature:	0°C up to + 55°C
Protection class:	IP 64
Frequency:	13,56 MHz
Sending capacity:	1 Watt
Interfaces:	SMA
Reading range:	max. 35 cm depending on the used tags
Dimensions (LxBxH):	- DIN A4 antenna: 300 x 210 x 12 mm - Round version: Ø outside 270 mm, Ø inside 220 mm, height 15 mm
Antenna cable:	3 m incl. double-sided SMA plugs
Order number:	A2351.200.001 TA Pad antenna – DIN A4 version A2351.200.009 TA Pad antenna – Round version
